

A home. A family. A future.

Dream House gives medically fragile children more than a vacation or a fond memory. We help these precious children find their forever home and family for keeps! — Laura O. Moore, Founder and CEO, Dream House for Medically Fragile Children, Inc.

Medically fragile children deserve a quality life, too!

Dream House is a children's charity that teaches families and communities how to help kids with very complex health issues thrive in a home setting instead of being institutionalized for life.

Survive to Thrive

Medical technology saves more children than ever before, but for what kind of life?

Whether from disease, circumstances of birth, catastrophic injury or abuse, the conditions cross all diagnoses. What's the common thread? They are medically fragile — forever dependent on life-sustaining treatments, medication, therapy or equipment to survive, and require help with activities of daily living.

- Their number is growing exponentially.
- Ironically, the infrastructure to support their extraordinary care doesn't yet exist.
- With the already burdensome task of caring for chronically ill children, families and caregivers are left alone to search and beg for help to get the necessary equipment, supplies and therapy needed to provide adequate care for their children.
- Many families cannot adequately care for them, and when that happens, these children end up being abused, abandoned, then placed in foster care with families woefully unprepared for their complex care.
- As a result, these helpless children float around the system for years, eventually landing in senior adult nursing homes or live out their lives in Georgia hospitals.
- Reaching epidemic proportions, most of us have no idea this tragedy is taking place in our communities, throughout our state, and around the country.

Dream House is fueled by community support!

Dream House has set the standard for home care of medically fragile children which will some day have a national impact. With community support statewide, Dream House makes it possible for these kids to leave the hospital sooner, keep them out of institutional care, and give them the home, family and future each one so desperately needs to survive.

Your donation at work for Dream House Kids.

We welcome your gifts — time, talents and financial support from individuals, businesses and charitable foundations. As a 501(c)3 charitable organization, Dream House relies solely on private contributions to fund programs and services for medically fragile children and their families throughout Georgia. Visit us online or call 770-717-7410 today for our Wish List and to learn more.
